& Engineering**

SCIENCE AND ENGINEERING INVESTIGATION AWARDS RISK ASSESSMENT

This form is required for all Science and Engineering Investigation Awards Projects. **This form should be completed before you start your investigation.**

Student's Name/s:	
Year Level:	
Teacher/Mentor:	
Title of Project:	

You will need to answer Questions 1 and 4 for all investigations. You will only need to answer Questions 2 and 3 if you are using hazardous materials, equipment or potentially hazardous biological agents.

You must include a copy of this form with your investigation report.

1. Investigation risks

a. List the risks involved in your investigation.
b. Describe the safety precautions and procedures that you will use to reduce these risks.

UNIVERSITY of
TASMANIA

2. Specific hazards (if applicable)

a. List all hazardous chemicals, activities, and/or equipment that you will use.
b. List any potentially hazardous biological agents that you will use.
c. Describe the safety precautions and procedures that you will use to reduce the risks associated with hazardous chemicals, activities, equipment, and/or any potentially hazardous biological agents as listed above.

3. Disposal of hazardous materials (if applicable)

Describe the disposal procedures of any hazardous chemicals or potentially hazardous biological agents that you will use.

UNIVERSITY of
TASMANIA

4. References

List the source(s) of safety information you used, including websites, books or laboratory safety guidelines.

- I/We have talked with my/our teacher/mentor about the **risks** associated with this investigation and how I/we will manage these.
- I/We have discussed with my/our teacher/mentor about any **specific hazards** associated with this investigation and how I/we will manage these, including the safe disposal of any hazardous materials.
